# DEDICATED TO:

## Jackson Parker & David Johnston

Walden III was founded in 1972 as the doctoral project of Parker and Johnston, two UW-Milwaukee education students. Their vision of “an alternative school in the process of discovery” has obviously paid off; for 45 years, our school has met and exceeded standards in education set by the State, while simultaneously donating thousands of dollars to organizations and individuals in need.

For having the vision to start this whole thing, we thank Jackson Parker and David Johnston. Here’s to 45 more years!
